

GUIDED  LEARNING

Innovation for English education

Partners include

With content from
OXFORD
UNIVERSITY PRESS

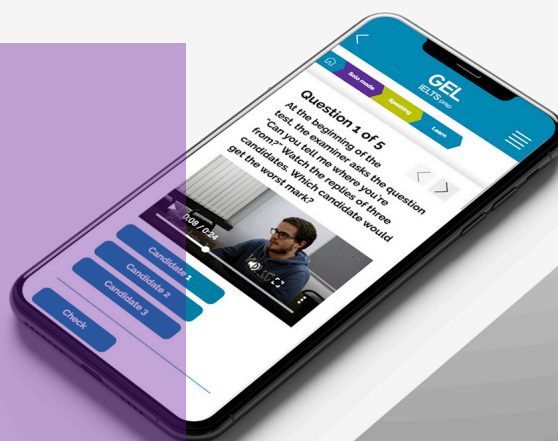

GEL products

Integrating high quality digital ELT content directly into your syllabus and combining with the most sophisticated data analysis tools available, GELnet drives quality improvement and process control to deliver the best education possible.

Selected and used by the British Council, GEL IELTS prep gives students access to 40 mock tests and everything students need to prepare for IELTS.

GELLY communicates the value and richness of your Young Learner programmes to students and their parents.

GEL Materials

Powered by Aims

Digital content integrated with your syllabus

GEL Aims maps both online and offline content to your syllabus, tests and the most popular coursebooks.

Coursebook to coursebook content

Recycle topics by finding alternative materials.

GELnet materials include

OUP content

Our content partnership with OUP integrates a vast array of high-quality digital ELT content directly into your syllabus—regardless of which coursebook you use.

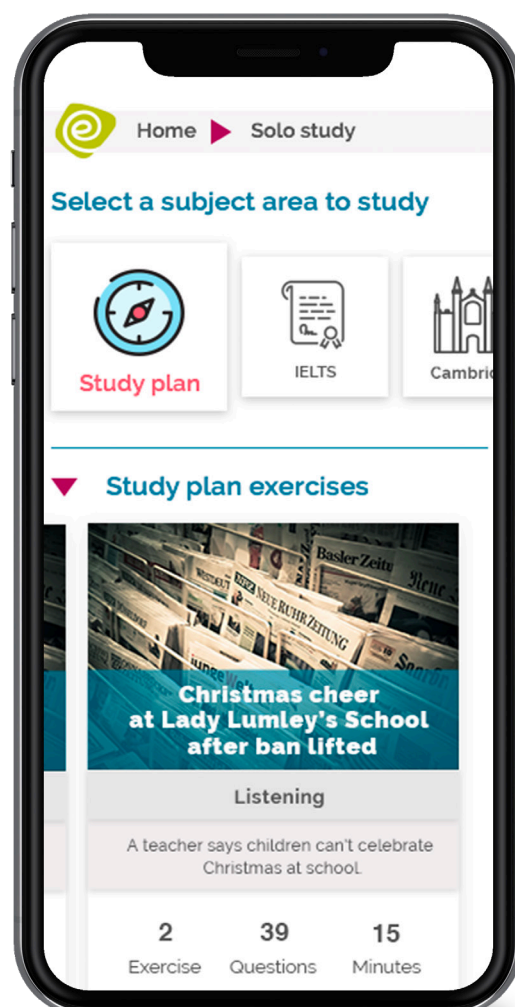

GEL content

GEL's library of skills and grammar lessons, including Flash Point, our news-review lesson, will give your students access to a wealth of high-quality practice much of which utilises real English.

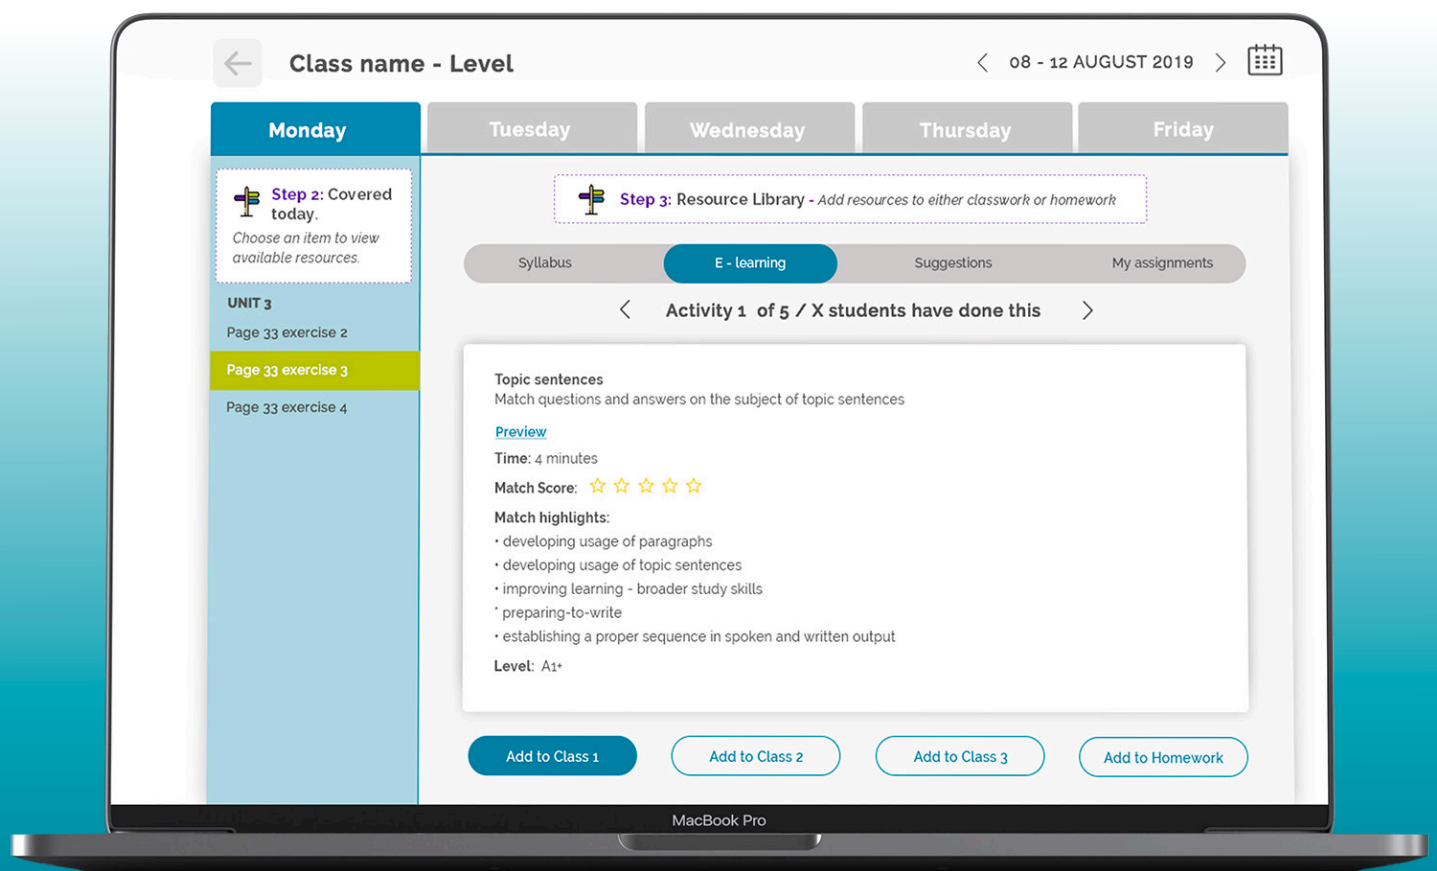

GEL Level tests

GEL End-of-unit test item bank

Oxford Online Placement Test

GEL education intelligence and CourseQual

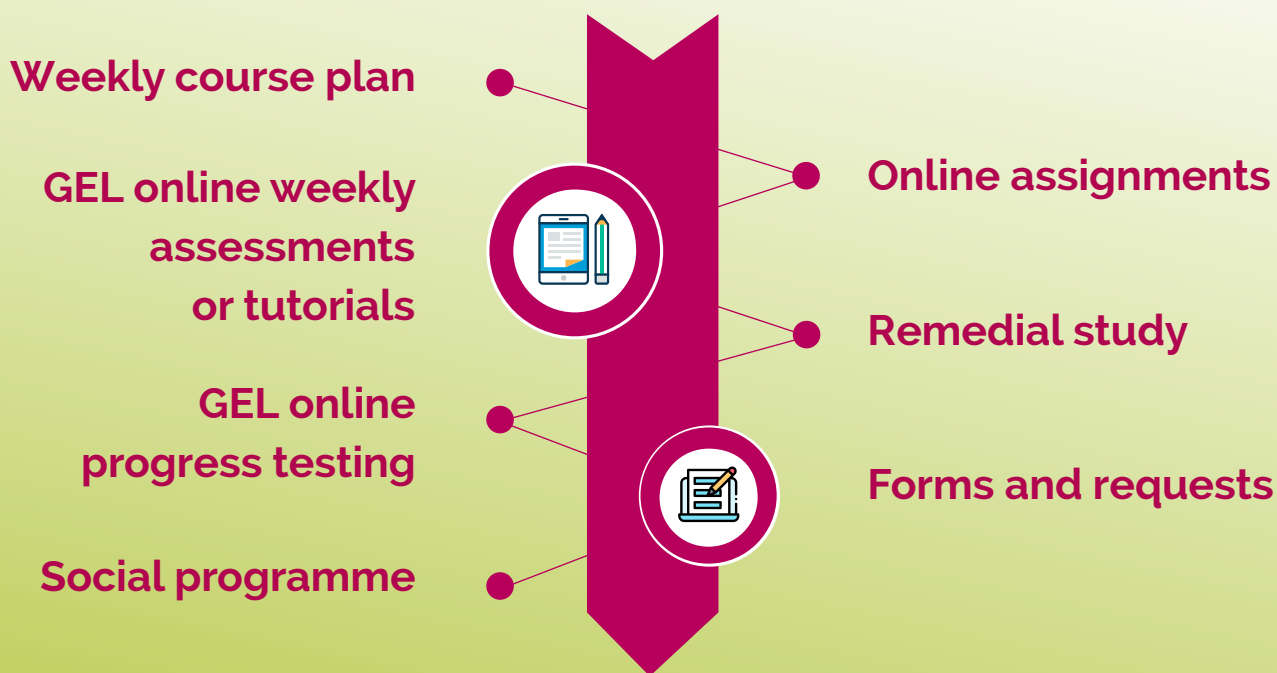

GEL's CourseQual is our system for managing classroom quvality and consistency.

- GEL's online weekly lesson planner helps teachers follow the syllabus and provides easy access to a wide range of materials.
- GEL's sophisticated education intelligence platform will give you the data necessary to maintain the highest educational standards.
